

Writing Outreach Programs

JUTE has invested in writing programs over the last 25 years, working with over 300 writers, developing 240 new works, producing 73 works and touring 41 of these.

**CAPRICORN WRITER'S
FESTIVAL**

In 2016 we revised our writing programs which are now titled "Write Sparks". Write Sparks has helped over 20 playwrights in the Cairns region over the last 3 years to find their story and write scripts for performance—some of them are now moving towards production stage! JUTE Writing programs work! They work so well that JUTE is now ready to share it with other regional centres who have uncovered a demand for people to develop their stories.

Write Sparks facilitator, Kathryn Ash, can travel to your region and deliver the entire program of 9 workshops, giving you and your group of writers the skills they need to make a confident start on their script writing journey.

Write Sparks is complemented by JUTE's Write Out Loud Online Program, a companion program that mirrors the Write Sparks course and allows participants to revisit the material at their own pace at any time.

Write Sparks will be conducted at this years Capricorn Writer's Festival, May 31, June 1 and June 2.
